WANT HIS ADVICE.

Washington, June 17.—Gen. Miles returns today. The presence of the general is desired by Secretary Alger and the president at this time, as there are many questions in connection with the invasion of Santiago and the projected expedition to Porto Rico, upon which it is desired to consult him. The commander of the Army, by reason of his actual experience in directing the embarkation of the troops from Port Tampa and his knowledge of the condition of such a campaign, will be valuable to the officials here. Gen. Miles will be consulted respecting the investment of Havana and whether it is wise to undertake that before autumn when the rainy season has passed.

THE WHITSITT DISPUTE.

Hopkinsville, Ky., June 17.—The General Baptist Association of Kentucky will meet in this city Saturday morning. The ministers' and members' meeting, a body made up largely of the same delegates, began a two-days' session this morning. Dr. W. H. Whitsitt is here, and Rev. J. T. Christian, the leader of the anti-Whitsitt forces, is also here, and the sessions of the association proper are expected to be enlivened by a discussion of the doctrinal points upon which Dr. Whitsitt was taken to task at Georgetown last year.

A. P. A. NEAR DISSOLUTION.

Washington, June 17.—The American Protective association has abandoned its national headquarters here and it is said, has moved its main office to Clinton, Iowa. The rooms it occupied are for rent and the only address left by the retiring president, John W. Nichols, is Atlanta, Ga., where he has directed his mail to be forwarded. It is believed here that the abandonment of the national office is but one feature of the order's entire dissolution.

W. H. LYONS WINS.

Washington, D. C., June 17.—W. H. Lyons, of Newport, Senator Deboe's private secretary will be appointed an assistant quartermaster general of the volunteer army, with the rank of captain. Senator Deboe yesterday called at the war department and endorsed George E. Mayo, of Bowling Green, for a second lieutenant in the regular army. Mayo stands a good show of being appointed. He is a military man of long experience.

BECAME A MOTHER.

Mrs. Flora Minnis, who married a Quaker doctor at Mayfield and was abandoned by him a short time afterward, today gave birth to a babe at her home on South Eighth street. She has been living here for some time.

An Up-to-Date Place

40 YEARS THE LEADER

SENSATIONAL SPANISH RUMORS,

That the Philippine Islands Have
Been Sold to Germany
by the Spanish Gov-
ernment.

HAS THE CADIZ FLEET SAILED?

A German Sea Captain Reports
Seeing a Spanish Fleet at Sea.
Spain Ridicules the Idea
of Being Invaded

DON'T BELIEVE CUBA WILL BE INVAD.

London, June 17.—The news has a Gibraltar dispatch saying that it is rumored there that Spain has sold the Philippine Islands to Germany, which is the reason for the German squadron going there.

WAS IT A PHANTOM FLEET.

Gibraltar, June 17.—The captain of the German steamer Porto arrived here today and reports that this morning when abreast Ceuta he passed two Spanish ironclads, four large cruisers and four destroyers, all steering east.

SPANIARDS RIDICULE

The Idea of an American Fleet
Attacking the Coast of Spain.

Madrid, June 17.—Military and naval officials here ridicule the rumors that come from Washington of the intended dispatch of an American squadron to harass the coast of Spain. They claim that their forces are so well defended that an attack would be futile.

They also claim that no fleet could carry enough coal for such an expedition and that it would be impossible for the fleet to get coal on this side of the Atlantic.

DON'T BELIEVE ANYTHING.

Madrid, June 17.—A member of the Spanish ministry declares that the government does not believe that the Tampa expedition, which is reported to have sailed for Cuba, has ever left the American coast. He says that all the movements of the American ships and troops are known to General Blanco at Havana.

THEIR PLACES FILLED.

The Striking Sailors Have Been
Discharged and Are Out
of a Job.

Newport News, June 17.—Foreign firemen and stokers on the auxiliary cruisers Yale and Harvard have been discharged, the officers considering it to be bad policy to force them to stand by the terms of their mercantile enlistment against their wishes. Their places will be taken today by men from New York, Philadelphia and Baltimore.

SITUATION IMPROVING.

The Yellow Fever Quarantine is
Removed From Bay
St. Louis.

Mobile, June 17.—The Mississippi state authorities today removed the yellow fever quarantine from the town of Bay St. Louis. It is believed this action will be followed by a general lifting of all the quarantines at various places along the coast.

CUBANS WAITING TO REVOLT.

Key West, June 17.—Gen. Arman, an insurgent leader in Pinar del Rio, reports that thousands of Cuban volunteers there are ready and waiting to revolt against Spain as soon as the attack on the city of Havana begins.

A BIG FAILURE.

Cambridge, Mass., June 17.—The Boston Woven Hose and Rubber Co., of this city, assigned yesterday. Their liabilities are twelve hundred thousand dollars.

Coldest beer in the city at Lago-marino's.
Try our 7-year-old straight whiskey.

GEN. DIAZ WINS CUBAN VICTORIES.

The Province of Pinar del Rio
Safe in the Hand of the In-
surgents—Enemy Driven
to the Coast.

SPANIARDS HEAVILY DEFEATED.

The Cubans Kill Ninety Spaniards,
Including a Commander, and
Capture Over 400 Guns—Diaz
Master of the Province.

DIAZ NEEDS MORE GUNS AND AMMUNITION.

Key West, June 17.—Messengers from Gen. Diaz, the Cuban commander in the Pinar del Rio, arrived last night with important dispatches for General Miles. He reports that sixteen hundred Spanish troops, including cavalry and infantry are concentrated between Bahia Honda and Mariel, two towns on the coast, but that Gen. Diaz is complete master of the interior.

The messenger also reports that the forces of General Diaz were led into an ambush June 9, but succeeded in routing the Spaniards, who lost ninety men killed and wounded, including a captain and a commander, Col. Barbas. The insurgents captured 400 rifles.

Diaz now needs only guns to sweep the country up to the walls of Havana. The province of Pinar del Rio is the extreme western part of Cuba, and extends close to Havana.

SPANISH BARBARITY.

Chicago, June 17.—A special cablegram to the Record dated Camp McCalla June 14, says: The Spanish guerrillas infesting the brush about here are guilty of great atrocities. The bodies of the American marines shot by the enemy are subjected to worse indignities than those practiced by the Indians.

Their skulls were taken away, their eyes destroyed, their ears and noses cut off, and their feet and hands amputated. A small squad of Cubans on their way to join us were ambushed and ten were killed. The dead were disemboweled and their faces so frightfully hacked as to be unrecognizable. Cubans bring word that the Spaniards declare no quarter is to be given and no prisoners taken.

A SOFT SNAP.

It Begins to Look as if Wheeler
Would Have No Opposition
in the Primary.

Mr. Nichols, Who Had Been
Thought a Candidate, Re-
fuses to Make the Race.

It now begins to look like there will be but one democratic candidate for the congressional nomination in the First district. Col. Tom Corbett, of the city, has declined to make the race, and in a letter to a friend here, Mr. J. M. Nichols, of Bardwell, who was being urged to run, a petition being signed asking him to make the race, now declines the honor in the following letter to a friend here, Mr. T. L. Crice. He says:

BARDWELL, Ky., June 11, 1898.
T. L. CRICE, Esq.,
Paducah, Ky.,

Dear Sir: Replying to yours of 8th inst., in which you enclose a petition signed by a number of my friends asking me to become a candidate for congress, I beg to acknowledge the high compliment that you and the gentlemen who signed the petition, have thus bestowed upon me. I assure you that I do not feel indifferent to the wishes of my friends in

this matter, nor to the honor they would, and indeed have conferred upon me. But, however much I may regret to do so, I feel compelled to decline their request to make the race for congress. The primary is now at hand and I very much doubt whether my entering the race at this time would not work a harm to the party, that would be felt at the November election. But I hope you will not think it necessary for me to state at length the reasons that have controlled me in taking this step. But while I feel that this is the proper step to take, I know that you and the gentlemen who signed the petition will believe me entirely sincere when I say that I feel greatly honored by their action in asking me to become a candidate for congress. Gratefully,
J. M. NICHOLS.

My time having been occupied in court I have been slow in answering

DEWEY HEARD FROM.

Confirms the Activity of the In-
surgent Forces at
Manila.

Washington, June 17.—A dispatch from Dewey, dated June 12, has just been received at the navy department. He reports little change in the situation. The insurgents have practically surrounded Manila, and have captured 2,500 Spanish prisoners. The correct list of vessels destroyed in the battle of May 1 includes two protected cruisers, five unprotected cruisers, one transport and one surveying vessel. Captured at the same time, the transport Manila and gunboat Callao.

A SHORT REVOLUTION.

Revolutions uprisings at Port au Prince was quelled Wednesday after a fierce battle. Two rebels were killed by the soldiers' fire. Many arrests have been made.

THE HAWAIIAN BILL.

Washington, June 17.—Senator Davis reported the Hawaiian annexation resolutions to the senate today without any amendment by the committee. He gave notice that he would call them up tomorrow.

NO EXCHANGE.

Spanish Ministers Declare They
Will Not Exchange Hobson
and His Crew.

Havana, via London, June 17.—It is officially stated here today that the prisoners of the Merrimack will not be exchanged. The Spanish ministers absolutely refuse to make the exchange.

SPANIARDS PREPARING TO FIGHT

Guantanamo, Wednesday, via Jamaica, June 16.—It is evident that the Spaniards do not intend quietly to abandon the positions they took when the American marines were landed on Cuban soil six days ago. They have been driven inland day by day, but are assembling additional forces every hour, and are preparing to make a fresh assault on the American defenses. The Spanish gunboats in the inner harbor have been hard at work carrying troops across the bay to surround our troops. There is little doubt these troops are being sent to a common rendezvous for a concerted attack against our forces, either in mass or by night surprise.

WORK FINISHED.

Telephone Line to be Completed
From Boaz to Lovelaceville

The telephone line which has been establishing the line to Lower and other points in Graves county finished work today, and returned to the city, and people in Paducah can now talk to people at Lowes, Pottsville, Boaz, Florence, and many other places.

Supt. Joynes says that the company will build the line from Lowes to Lovelaceville, a distance of six miles, as soon as the material arrives. This is the line that a petition is being gotten up to secure.

Hank Bros. & Jones are selling the best ice cream freezer made.

MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home—makes the clothes right, makes the bill right. It costs but a trifle more to wear garments that fit than those that almost fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited—it'll cost you so little.

POUNDING SANTIAGO.

Dynamite Cruiser Vesuvius Sends
Two Shots Over Morro Hill
Into the Harbor—Much
Damage Done.

Guns on the West Side of the Har-
bor Silenced With Heavy Loss.
Five Thousand Projectiles
Fired by the Fleet.

Off Santiago, June 16, via King-
ston, June 16.—Sampson's fleet bombarded the batteries at Santiago this morning; this is the third time Sampson has bombarded Santiago.

For several hours the ships poured shot and shell into the batteries on both sides of the harbor entrance, only sparing El Morro, in which the Merimae prisoners are confined. The western batteries, against which the main assault was directed, was badly wrecked. One was utterly destroyed. In others many of the guns were dismounted. At first the Spaniards replied passionately and wildly, but impotently. Then most of the guns were deserted.

Not a ship was struck nor a man injured on the American side. It is believed there was heavy loss of life among the enemy.

The dynamite cruiser Vesuvius last night was given another chance. Three hundred and fifty pound charges of gun cotton were sent over the fortifications at the entrance. The design was to drop them in the bay around the angle back of the emplacements on which El Morro is situated, where it is known the Spanish torpedo boat destroyers were lying. The two charges went true, as no reports were heard, a peculiarity of the explosion of gun cotton in water. Whether the destroyers were demolished is not known, but the destructive area of gun cotton is large and it would not be surprising if one or both were destroyed. The third charge exploded with terrific violence on Cayo Smith. A crater big enough to hold a church was blown out of the side of the Cayo Smith was clearly seen from the ships. During the bombardment the Texas dropped a shell into the magazine of the western battery. The explosion wrought terrible havoc. The frame lifted and the sides were blown out and a shower of debris flew in all directions.

The loss of life must have been great. At the close of the action a stream of multi-colored flags floated from the New York, generally complimenting the ships, especially the work of the Texas and the New Orleans, the latter of which got within 500 yards of the shore on the east side of Morro and played a tattoo on the batteries. One shot from the New Orleans struck a gun squarely muzzle on, lifted it off its trunnions and sent it high in the air. Probably 5000 projectiles were fired during the bombardment.

PORTO RICO INVASION.

Washington, June 17.—The President has directed that every effort be made to have the Porto Rican army ready in two weeks. The army will probably embark from Fernandina, Fla. Some of the transports now with Major General Shafter's army will return after discharging their loads and about fifteen others will be chartered. The army will consist of 20,000 men. Fifteen thousand will be volunteers and 5,000 regulars. Major General Copinger will himself make the selections.

Four thousand more soldiers are to be sent to Santiago, starting from Mobile. Reinforcements have been

considered necessary, because, owing to the long delay, Spain has been enabled to concentrate 12,000 regular and 4000 volunteers at Santiago according to reports received at Washington.

Jesus Rabi, the famous Cuban general, has the Cuban flag flying and 1,000 men encamped at Aceraderos, fifteen or twenty miles west of Santiago, having been supplied by the American fleet. Gen. Garcia is marching to join him with 5,000 or 6,000 men. The camp is a strong strategic point and is also a good landing place.

Washington, June 17.—It is not unlikely that the United States will shortly send a fleet against Spain's home ports, which will give Admiral Canara's fleet a chance to sail, if only to get out of the road. Nothing will be done until the completion of the task cut out at Santiago. It is possible the fleet may be composed of the battleships Oregon and Texas, armored cruiser Brooklyn, protected cruisers New Orleans, Minneapolis and Columbia and the auxiliary cruisers Harvard, Yale and St. Louis.

SAILED AGAIN.

Washington, June 17.—The state department received a cablegram today that the Cadiz squadron has sailed east. The dispatch is supposed to be from Gibraltar.

METROPOLIS WEDDINGS.

Two Couples Married There This
Afternoon.

Randall A. Jones and Miss Mollie C. Patton, of Fulton, arrived in the city this morning at 9 o'clock, and at noon left for Metropolis, where they were married this afternoon at the Copeland hotel by Justice Liggett. They strenuously denied that they were going there to marry when asked about it by a reporter.

Robert Glass and Eliza Cannon, colored, left this morning on the Cowling and were married by Justice Liggett at his office this afternoon. Both couples returned to the city this afternoon, and the Fulton couple will return home at 4 o'clock.

SUITS FILED.

Mr. F. G. Rudolph, administrator of the late Rev. Dupree, today filed suit in the circuit court against several persons to wind up the estate of the former.

An answer was filed to the suit of Mrs. Hattie Meyers against the Manhattan Insurance Co., for \$2,200. The company claims the policy had expired or lapsed.

BOB BLANKS' TRIAL.

The trial of Bob Blanks, at Mayfield for rape, has been continued, and instead of coming off on the 24th of this month, it now may not come off until the third week in July, although it is possible that it will be called on July 5th.

FIGHTING AROUND MANILA.

Three Thousand Prisoners Taken
By the Insurgents in Two
Weeks, Including 2-
000 Regulars.

CITY COMPLETELY SURROUNDED

The Spaniards Are Willing to Sur-
render to Admiral Dewey, to
Prevent Insurgents From
Killing the Troops.

MANY SPANISH PROVINCES CAPTURED.

New York, June 17.—The Journal has a Hong Kong dispatch today which says a thousand insurgents made an attack upon two thousand Spaniards before Manila, inflicting heavy losses, and almost forcing an entrance to the city.

The insurgents and American forces now completely surround Manila. The foreign residents have fled to the ships in the harbor.

The report says a Spanish spy attempted to poison Gualdo, but without success.

Augusti is reported as being willing to surrender to the Americans to prevent the insurgents from capturing the capital and setting fire to the city and killing the Spaniards.

Within two weeks the insurgents have taken three thousand prisoners, including two thousand regular soldiers.

The large garrison at Old Cavite has surrendered, thus giving the insurgents command of the shore along the entire bay.

The governors of the provinces of Bulacan, Cavite and Batavia have been captured.

JUNE 25

The Date That Congress is
Now Talking of For
Adjournment.

Special to the Sun.

Washington, June 17.—There is strong talk now of an adjournment of congress on June 25. It is believed that the Hawaiian matter will be disposed of by then.

Fresh shipment of Allegretti's just received at Stutz's.

The "Siberia" refrigerator is guaranteed to be charcoal filled, therefore the best ice keeper.

ALLEGED EXPLOSIVE DISCOVERED.

A New Engine of Destruction
That the Spaniards Expect
Will Work Great
Havoc.

THE SPANIARDS GET INDIGNANT.

Deny That Their Soldiers Have
Mutilated The Dead Bodies of
Americans at Caimanera or
Elsewhere in Cuba.

CLAIM THE STORY IS ALL FOR EFFECT.

Paris, June 17.—The Figaro today publishes, with evident sincerity, a story from Madrid that Aunon has witnessed experiments with the new explosive Texpire. The projectile conveying the explosive is a rocket with a greater range than most any modern guns, and the explosion will sink an ironclad even if it falls anywhere near it in the water. The machine can be worked by three men from the smallest ships' boats.

THEY DENY IT ALL.

The Spanish Authorities Say That
Their Soldiers Mutilated
No Bodies.

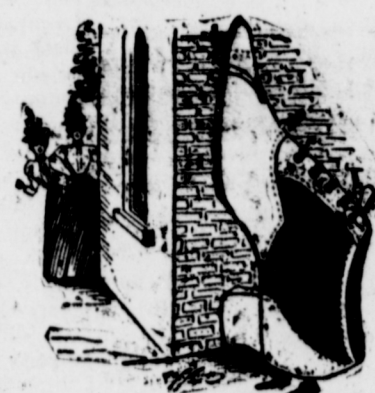

Madrid, June 17.—The Spanish Government has issued an indignant denial of the reports that the Spaniards mutilated the bodies of the dead American soldiers at Caimanera. They claim that the story was started solely for effect, to offset the growing sympathy of the European nations for the Spanish cause.

FRIDAY, JUNE 17, 1898.

Spain has held the Philippines for 600 years and has 16 miles of railroad to show as an evidence of her progressive ideas and methods of governments.

LEXINGTON feels the need of a curfew law, just as other cities have felt it, and is about to enact one. The law has been in operation here for several months and its influence has been most gratifying.

AFTER many delays and bickerings Uncle Sam paid the damages ascertained to be due to Canadian sealers. Sir Julian Pauncefote was yesterday paid \$475,000, being in full of the amount of the award, to be distributed amongst the claimants.

By all rational calculation Shafter's army ought to reach Santiago tomorrow evening, in time for our usual Sunday morning fight. Just get Shafter's army ashore and start him and he never will stop until he reaches Havana.

CONGRESS has done itself proud by its vote on the Hawaiian question. But at the same time it is hard to repress a feeling of disgust that these 209 friends of Hawaii a clear majority of 118, had to wait until Speaker Reed gave his permission before they could vote their sentiments.

As long as one man with a few millions of dollars by attempting a corner of the Chicago wheat market can dictate the price of wheat the world over, even for a few months, there is not much danger of an enlightened nation in Europe going to

war with the United States without exhausting all honorable means for peace.

The Grand Lodge of Masons of the State of Washington, recognizes negro lodges and their authority to confer Masonic degrees. The recognition is confined to such lodges as hold charters from the Grand Lodge of England. This is the first Grand Lodge to grant such recognition.

THE bill to annex Hawaii was opposed by the Democratic party in Congress by a large majority and by the Democratic oracle Mr. Bryan; and yet every instance of territorial acquisition by this nation, excepting the purchase of Alaska, took place under a Democratic administration. Clearly then these latter day Democrats are not following in the footsteps of the "Fathers."

OUR Democratic friends are opposed to retaining any of the captured possessions of Spain, knowing at the same time that Spain is unable to pay any indemnity in money. An administration that would dare to conclude terms of peace on the Bryan idea would be damned by the American people as long as one spark of patriotism burned in an American heart.

ALL honor to Congressman Berry, of the Sixth Kentucky district; not necessarily because he voted for the annexation of Hawaii, but because he had the nerve and manhood to vote his convictions, and not to be a mere machine to register the will of a few inept statesmen and misfit leaders who vainly imagine they are leading the Democratic party.

OUR mariners are bold fellows and good fighters, but too much ought not to be expected of them. They ought to have sufficient support and not be cut up one at a time by superior Spanish forces. The delay in sending the troops to Sampson was an unfortunate affair, in the best light we can look at it. As to whose fault it was, is not our business to suggest or inquire. How many more mariners we shall lose before the army reaches Sampson, cannot be known, just now.

COL. W. J. BRYAN claims to draw his inspiration from the late Andrew Jackson, and yet he fails to explain the inconsistency between his new

BRYAN'S BAD MEMORY.

The United States has been increasing its area in square miles ever since the administration of Thomas Jefferson. In its original form the nation covered but 827,844 square miles. One after another of the democratic presidents witnessed the acquisition of new territory, a fact which Mr. Bryan and the democrats opposing the Hawaiian resolutions seem to have forgotten. Every acquisition, with the exception of the purchase of Alaska under the Johnson administration, was made under a democratic president, as will be seen from the following table showing the territory gained by the United States:

Name.	Sq. Miles.	Year.	President.
Louisiana.....	1,171,931	1803	Jefferson.
Florida.....	59,268	1819	Monroe.
Texas.....	376,133	1845	Polk.
Mexican (cession).....	545,783	1848	Polk.
Gadsden purchase.....	45,535	1853	Pierce.
Alaska.....	577,300	1867	Johnson.
Total acquired	2,876,040		

Democratic creed of "no annexation" and the fundamental idea of Andrew Jackson's belief "to the victors belong the spoils." Does the newly fledged colon expect us to believe that Old Hickory would wage a war and give up all the fruits of victory; that Jackson, were he here now, would after the great success of Admiral Dewey, supinely return the Philippine Islands to Spain? Mr. Bryan may delude himself into such a belief, but he will be lonesome.

WHILE great honors are justly accorded the Oregon for her splendid trip, there has been little said about the Marietta and the Buffalo. These little fellows separated from the Oregon and were left to shift for themselves like orphans. And they did so in a most successful manner. The Oregon came in safe, and a few days after the Marietta and the Buffalo, having defied enemies, winds and waves, dropped their anchors in Uncle Sam's harbor. While honors are being handed around, these "little boats" must not be forgotten.

A BANKRUPTCY law has been agreed upon by the conference committee and it will soon pass Congress and become a law. The real object of a bankruptcy law is to give an honest debtor a chance to begin life over again after having given up all his property for the benefit of his creditors, and also to compel a delinquent debtor to surrender his property when it is shown that he is seeking to defraud his creditors. The present law, as framed by the conference committee, covers both these points, and when it is thoroughly comprehended will meet with the approval of the entire business community.

USE voted to annex Hawaii, all except Wheeler and 90 others. The vote stood, for annexation 209, against annexation 90 and Wheeler, the Congressman from this district. Charles may satisfy his free silver adherents that he voted all right for the white metal, but he may not come out so well when he voted to limit the space over which Old Glory should wave. Charles's ideas, if he has any outside his recent silver conversion, have had a sort of mental colic. The fact that Charles's head is in a strain was shown by his instructions to the examiners, that no young fellow was to be examined for a place in West Point "whose parents did not vote for Bryan."

THE greatest mistake Councilman Eades and ex-Supt. Davis made was in not explaining that check transaction in the very beginning, when Mr. Tom Davis first made his charges of bribery. The Sun has no opinion relative to the guilt or innocence of the gentlemen under investigation, but is frank to confess that from what can be heard on the streets, the explanation made day before yesterday, was made at the most inopportune time, and has had anything but an effect salutary to the interests of the gentlemen. The transaction was kept in the dark too long, for now few men can be induced to believe all that is said about it, although all that the gentlemen claim may be true in every particular.

ALL persons seeking immunity from crime and an asylum from justice are respectfully referred to the city of Louisville, Ky. According to one of the metropolitan papers, that city is one of the most sin-haunted, crime-producing cities of the West, and as the paper seeks notoriety for the old town on this account, we give it a free ad. The officers of the city are incompetent, or stand in with the scoundrels. Honest people should avoid a place where "murder is no crime," "perjury is a pestime," "felonies are compounded," "neither life nor property is safe," and the possibilities of mob law and vigilance committees are to be considered. Now, this is all true, or some one has lied like a Spaniard.

SHOULD the acquisition of the Hawaiian Islands, with their 6,640 square miles of area and population of 109,020, be as it is claimed, but the entering wedge for the seizure of the island possessions of Spain there are several groups of islands that this government can capture. Leaving Cuba out entirely, the United States may in the pursuance of the new policy take possession of 119,926 square miles of territory in settling the cost of the war with Spain. Porto Rico has an area of 3,670 square miles, and a population of 805,708. The Philippines cover

114,326 square miles, and support a population of 7,000,000. The Salus Islands have an area of 950 square miles and a population of 75,000. The Carolinas and Pelews have an area of 560 square miles and a population of 36,000, and the Ladrone Islands 420 square miles and 10,172 population.

POLICE COURT.

There Were Several Cases, Including the Prize Fighters, of Local Interest.

A Mayfield Man Fined This Morning for "Totin'" a Pistol Last Night.

The pugilist, F. L. Patterson, and Charlie Howard, who had a little mill of their own at the New Richmond in the wash room yesterday afternoon, were arraigned in the police court this forenoon on a charge of breach of the peace, and were fined. Patterson, whose countenance looked like it had been bombarded by Dewey and his fleet, was fined \$10 and costs, and Howard, who didn't want to fight but had to, was fined \$1 and costs.

The malicious shooting case against Andrew Odum charged with shooting at Lee Wilson, a colored woman, was continued until Monday, as the counsel for the defense announced that it could get witnesses to prove that the woman had told them that the man did not shoot at her. Pat Ross and Dal Powell had an altercation on the market this morning and Ross was fined \$5 and costs, while the case against Powell was dismissed. Ross claimed that the other man called him a liar, and that he called him another and struck, but as Ross declined to testify and there was no one to testify against Powell, the case against the latter had to be dismissed.

T. S. Pearce is the name of a Graves county farmer who was too hilarious on West Court street last night. He was arrested by Officers Senser and Dugan, and a pistol was found on his person. He offered Chief Barber \$25 to release him, but the kind offer was declined. The case was this morning continued, and the defendant released on a bond of \$100 to appear Wednesday and answer to the charge.

The owners of two cows and one horse were obliged to pay the costs of impounding them to escape a fine and have the stock sold.

ELOPED TODAY.

Surprise Wedding of Two Well Known Young People.

Mr. B. Carroll and Miss Louie Shaw, both of this city, eloped to Metropolis this morning where they will be joined in the holy bonds of matrimony.

The elopement was quite a surprise to the friends of the couple. They left at 5 o'clock this morning, accompanied by Mr. Harold McNish and Miss Genevieve Sirks. The trip was made in a buggy and the happy couple will return this afternoon to receive the congratulations of friends.

The groom is the popular young pilot on the steamer P. D. Staggs and the bride is the beautiful and accomplished daughter of Capt. Wm. Shaw, on South Fourth street.

Mr. Copeland and Miss Shaw were married at the Copeland hotel at 9:30 o'clock by Justice Liggett, and returned this afternoon.

HE WAS FINED.

Tom McCain, Charged With Murder, Gets Off Light.

Tom McCain, of near Benton, who shot and killed Sam Jackson a few months ago, was tried yesterday and convicted, being fined \$300. He is an aged Irishman, and there had been some ill feeling between the two men, but McCain was evidently justified in killing him.

"HUB" WAS HELD.

He Was Charged With Selling Liquor Without a License.

"Hub" Cope, a Mayfield tough, was brought in yesterday afternoon by Deputy U. S. Marshal LaRue, and tried before Commissioner Puryear on a charge of violation of the revenue laws. He was held to answer and in default of bond went to jail.

EXCURSION TO DAWSON.

Sunday, June 19, 1898.

Special train leaves Paducah about ten o'clock a. m. arriving at Dawson at noon and returning leaves Dawson at 7 p. m., fare for round trip \$1.00.

Beauty in Blood Deep. Clear blood means a clear skin. No beauty without it. Cataplasms, Bandy Cataplasms, clean your blood and keep it clean. By stirring up the liver and driving all its poisons from the body. Begin today to banish pimples, boils, blotches, blackheads, and that sickly bloom complexion by taking Cataplasms. Beauty for ten cents. All druggists, satisfaction guaranteed. 10c, 25c, 50c.

DIG DAMAGES.

The Cave-In Will Cost the Contractors Quite a Sum.

The sewerage contractors have tough luck.

Ever since the work began they have had everything that could be thought of to contend with, and it was only a few months ago that a collapse of their works on North Third street cost them several hundred dollars.

Last night there was a collapse of the ditches on Court street, as mentioned elsewhere, and the cost, as estimated today, including loss of time, additional labor, and so forth, will cost them \$300 or more. In addition to their own losses, they will likely have to pay that of the water company, as the company claims the contractors are to blame for the accident.

LAST SAD RITES.

Funeral of the Late Mr. J. Henry Peiper This Afternoon.

The funeral of the late Mr. J. Henry Peiper took place this afternoon from the German Lutheran church. The remains were taken in charge at the house by the Elks and were conveyed to the church. The pall bearers were: Messrs. M. W. Johnson, John Theobald, John McNulty, George Jones, F. J. Bergdoll, L. A. Lagomarsino, George Detzel and J. Will Fisher.

After the services at the church the Elks again took charge of the remains. The burial at Oak Grove was under their auspices and with their ritual.

THE MAREORAMA.

A Queer Device Being Manufactured for the Paris Exposition.

One of the most novel attractions of the great world's fair at Paris, for which so many queer and monstrous devices are in preparation, will be the "mareorama." The name sounds rather strange, but the thing itself is far stranger; for by means of it one will be enabled to enjoy the illusion of a long sea voyage—the salt breeze, the rolling of the ship in a storm, the spectacle of the tossing waves and the scenery of the shore—all without leaving the seclusion where this clever piece of apparatus is set up. Hence is derived the name, which signifies "a view of the sea."

The spectators will find themselves apparently on the deck of a big ocean liner—for this will be exactly reproduced, with mast and rigging, and even the crew. This deck rests on a spherical pivot placed under the center, so that all the motions of rolling and pitching can readily be imitated. These movements are produced and regulated by the manipulation of four hydraulic pistons, located fore and aft, and by accelerating their action the full effect of a violent storm can be obtained.

On each side of the ship a painted canvas, 48 feet in height, will slowly unroll and glide past the spectator toward the stern of the vessel, thus giving a vivid impression of forward motion—disclosing scene after scene of the imaginary voyage. This, with the heaving of the deck, makes the illusion almost perfect; yet it is to be enhanced by the use of great fans driven by machinery, which will send a fresh breeze in the faces of the spectators, and, as the air will first pass over a thick bed of moist seaweed, the characteristic sea odor will not be wanting.

M. Hugo d'Allest—*for he is the man who conceived the project and is now carrying it into execution*—has at first selected a voyage from Marseilles to Yokohama for representation by his mariorama. On account of the extreme length of this trip, however, and the rather uninteresting passage through the Suez canal and down the Red sea, he changed his plan for an excursion from Marseilles to Constantinople, with stops at Tangier, Algiers, Naples, Venice, Alexandria and Smyrna—a very attractive itinerary, abounding in historical and literary reminiscences. Yet to most of the spectators these magnificent panoramic effects will be but a secondary consideration. The grand attraction, after all, will be the realistic representation of a sea voyage with all its experiences—the spectacle of the working of a ship by real sailors under command of a veteran captain, the shriek of the whistle, the dense smoke pouring from the funnels, the stiff sea breezes and the pitching of the deck. If the realism of this last becomes excessive for those not accustomed to the ocean, they can go down into the cabin and view the panorama through the port holes; for the motion will affect only the deck.

Besides the usual incidents of such a trip—the storm, the passing of a squadron under full sail, sunrise and sunset and night—many harbor scenes will be included. For instance, when Naples is reached, a boatload of men and women will board the steamer to give their native dances in full costume, and so throughout the voyage.

The project has received the approval of the directors, who have given a liberal assignment of space for the purpose; and M. d'Allest has already started on his yacht for a Mediterranean cruise to complete his paintings, which will cover two miles of canvas.

CENTERS OF INTEREST.

Variety in Life Boats the Insane Asylums and Graveyard.

Lack of variety of interests does about as much as any one thing to wear out men and women and keep the insane asylums and graveyards full. You cannot call one set of nerves into continuous operation without depleting their vitality. Mr. Gladstone used to say that he found the greatest refreshment in turning from one kind of work to another which brought entirely different faculties into operation. There is great wisdom in that. Idleness is not rest. Doing nothing does not release the mind. It runs along in the accustomed groove when the body is idle,

and the task remains. What you need is a new center of interest. Something that will call new forces into play. When you find that your thoughts are constantly running in one channel, it does not make any difference what it is—business, the household, politics, war or love—it is time to call a halt. Set about learning a foreign language, build a hen-coop, or buy a lot of novels and lose yourself in them. Start a new center of interest. That is the way of mental vigor and salvation.—Boston Watchman.

The Costliest Fur.

The costliest fur is that of the sea otter. A single skin of this animal will fetch as much as \$1,000.

The Desert of Sahara.

The Desert of Sahara is as large as all that portion of the United States lying west of the Mississippi.

WINE OF CARDUI
McKENZIE'S
Wine of Cardui
has demonstrated ten thousand times that it is almost infallible
FOR WOMAN'S
PECCATEUR
WEAKNESSES,
irregularities and derangements.
It has been the leading remedy for this class of troubles. It cures a woman's nervous system, strengthening and refreshing influence upon the entire organism. It cures "white" and "red" discharges, it stops bleeding and relieves suffering.
Beware of cheap imitations. For changes of life it is the best medicine made. It is beneficial in all cases of irregularity, and helps to bring children into the world safely. It is a powerful tonic, strengthening the whole system. This great remedy is sold in all cities and towns. Why will any woman suffer from these troubles with certain relief? Buy early. Why will any woman suffer from these troubles with certain relief? Buy early. Why will any woman suffer from these troubles with certain relief? Buy early.
